MONEY, BONDS AND STOCKS.

An Increase of Activity at New York, the Clesing Being Weak and Lower. NEW YORK, Nov. 12 -- Money on call was easy at 232} per cent, the last loan being at 2, slosing offered at 2

Prime mercantile paper, 4 | 364 per cent Sterling exchange was dull but steady at M 841 for sixty-day bills and \$4.871 for demand. The total sales of stocks to-day were 227,-972 shares, including the following: Delaware, Lackawanna & Wastern, 6,600; Erie, 9,595; Lake Shore, 15,405; Missouri Pacific, 3,700; Northwestern, 7,795; New York Central, 6,205;

Northern Pacific, preferred, 13,064; Oregon Transcontinental, 16,250; Reading, 5,230; Richmond & West Point, 7,900; St. Paul, 8,340; Union Pacific, 16.625; Western Union, 11,024. The stock market was more active than last week, but it was weak and declining almost the entire day, prices at the close being materially

lower all over the list. London came lower this morning and was a seller in the foren on, but the bright business outlook caused a generally confident builtsh feeling upon the street, and on a moderate business some slight advances were made during the forenoon, although the market had an unsettled and somewhat feverish tone, the traders and "bears" continuing to sell the list. There were rumors and advices of rate troubles in the Northwest, but these had but little effect until toward noon, when it was announced that the Vanderbilt roads had made a serious cut in west bound rates. which was quickly followed by all other trunk lines, and the operators for a decline were not slow to make of the opportunity thus offered for effective hammering of the entire list. In the declines which followed the trunk lines were naturally the heaviest sufferers, but doubt was thrown upon the intentions of the Southwestern roads to make an agreement to advance rates, and they joined the downward movement. The coal stocke, also, were weak, though not so prominent as the above mention shares. A few specialties were very strong, however, and Cotton Oil and Chicago Gas trusts, with Tennessee Coal, Cregon Short-line and Milwaukee, Lake Shore & Western were all more active than usual of late and all scored handsome gains during the day. There was but little news of a character to affect values beyond that mentioned above, but the declines, once started, did not cease until the close of business. The market was dull but weak at the opening, the declines from Sat-

urday's final figures extending to | per cent. but the substantial support given the list resuited in fractional advances which were established all over the list, with Cotton, Oil and Tennessee Coal the special features, which were afterward joined by Oregon Short-line. The business done became smaller, but the improvement lasted throughout the foreucon, the best prices of the day being reached generally at about that time. The decline then began, the market showed more animation, the trunk lines leading off, but the weakness soon spread to the rest of the list and continued without a set-back for the remainder of the day. The close was fairly active and weak at the lowest prices of the day. The list is invariably lower this evenlog, and Atchison. St. Paul and Louisville & Nashville lost 12 per cent each; Missouri Pacific, 18; Lake Shore, 1t; Canada Southern, 1 per sent., and the others fractional amounts.

The railroad bond market was quiet, but ir-regular, though generally firm in the forencon. while weakening later, in sympathy with the share list. The sales of all issues were \$1,141,-800, though this was very evenly divided and no special feature was shown during the day. The greater portion of the list shows small changes only, but St Paul, I. & M. sevens, rose 2, to 116; C. & M. sevens, 3, to 128; the Southwest ern sizes, 21, to 114, and Utah Southern general

Government bonds were dull, but firm.

CHICAGO, Nov. 12 -- Trade in wheat was light and almost entirely local. The feeling was weak and very dull at times, and prices were again lower. The opening was about \$2 to lower than the closing figures of Saturday, ruled irregular within a small range, and then sold off ic more, held steadier and closed lic lower than Saturday's closing figures. The weakness was attributed to the talk of mills shutting down all over the country. Action was taken by miliers of the Northwest to adopt some measure by which the mills ot the principal milling points would shut down until recent accumulations could be sold. Two mills, it was claimed, had shut down to-day, but some operators were inclined to look upon this action as a speculative movement to influence the wheat market. The increase in the visible sup-ply, where a decrease had been expected, also had a weakening effect. There was only a moderate business transacted in corn, trading being confined largely between operators, and was on a rather limited The feeling developed was easier, and a lower range of prices was established. Opening sales were ic to ic lower than the closing figures of last Saturday, after which the market immediately sold off to, reacted i die, became steady, and closed &@ lower than on Saturday. Quite an active business in May oats was done, but there was no pretension to do much of anything in near futures. The influence of easier prices for wheat and corn was to cause market to lose some of the strength which appeared at the close of last week. Values, however, covered so small a range that no essential change could be quoted. Trading was moderately active in mess pork, but prices ruled somewhat irregular. Early in the day prices were advanced 10 a 124c, with rather liberal trading. Later the offerings were more liberal, while the demand slackened and prices settled back again. The trading was chtefly in January and May deliveries. Only a moderate trade was reported in lard, and the feeling was steadier. Prices were advanced 21 2 5c per 100 lbs, but settled back again and closed quiet. Little interest was manifested in the market for short ribs. Prices ruled steadier, but the changes were slight. There was no particular pressure to sell, and the demand was only moderate. The leading futures ranged as

GRAIN AT HOME AND ABROAD.

Statement Showing the Visible Supply in the United States.

NEW YORK, Nov. 12 .- The visible supply of grain on Saturday, Nov. 10, as compiled by the New York Produce Exchange, was as follows: Wheat, 34.340,610 bu, an increase of 645,411 bu; corn, 0,250.753 bu, a decrease of 1,522,314 bu; oats, 8,456,296 bu, a decrease of 98,685 bu; rye, 1,556,092 bu. a decrease of 524 bu; barley, 1,624,662 bu, a decrease of 161,738 bu.

The following was the visible supply of grain on Saturday last, in comparison with that of the previous Saturday, according to the official report of the Chicago Board of Trade:

bu; corn, 9.251.000 bu, a decrease of 1,512.000 bu; oats, 8.456.000 bu, a decrease of 99,000 bu; rye, 1,556,000 bg, an increase of 1,000 bu; barley, 1,624,000 bu, a decrease of 161,000 ou.

The Foreign Grain Trade. LONDON, Nov. 12 -The Mark Lane Express. in its review of the British grain trade during the past week, says: The changeable weather has favored wheat-sowing, and the planting of the 1889 crop has progressed to such an extent as to make the outlook favorable beyond what the average seasons afford, and conducive to an increased area being seeded. There has been no feature in the trade for old native wheats. Sound samples of new are locally is dearer. The sales of the week have been 59,422 quarters, at 31s 3d, against 57,795 quarters, at 30s 6d during the corresponding period last year. Country flour is very dull. The barley trade drags; good samples are against buyers, and the others are neglected. The price of oats tends upward. Beans and peas are unchanged. Foreign wheat buyers are depending upon the increasing of water-side stocks, with free shipments from Europe and the large quantity afloat, and also upon the expected collapse of the speculative movement in the United States, to serve their present purposes. The receipts have been large, amounting to 134,647 quarters for the week. One cargo of wheat arrived, one was withdrawn, and four remained, including one of Californian. There is some inquiry for finer grades of foreign flours; American patents are 6d dearer. Corn is steadier and prices are against buyers. Foreign bariers are firm; prices of foreign oats have hardened, notwithstanding the fact that there have been large arrivals. At to-day's market the wheat trade was slow; sound native and choice foreign kinds were firm. Damp and inferior grades were in favor of buyers. Flour was steady and floest was higher. Corn was irregular and dearer. Barieys were dearer, excepting inferior malting kinds. Oats were 3d dearer. Beans and peas were firm. Linseed was 3d @6d dearer.

A Cheerful Sun and Absence of Political Excitement Give More Life to Trade. INDIANAPOLIS, Nov. 12. The appearance of the sun, after several days of rainy weather, and the gradual dying-out of political excitement is making trade more active. A number of buyers were in, and mail orders were numerous. Traveling salesmen started out on their usual rounds to-day, and six weeks of brisk trade is now looked for. In prices. there were no fluctuations of importance. Dry goods ruled steady and firm all along the line. the firmness reaching woolen goods, as well as other descriptions. Confectioners are busy. and anticipate a brisk holiday trade. This has come to be one of Indianapolis's most important industries. Hardware men report trade rather quiet, which is not unusual this late in the season. Iron doalers are having a good trade at firm prices. Dealers in tinners' supplies report trade fair and prices steady, except on copper goods, which rule higher, as the market has been cornered by speculators. In groceries there is a fair movement. Sugars are steady, but not as strong as two weeks ago, and lower prices would not be a surprise. Coffees stand much in the same position as for some days past. The produce markets are fairly active. Eggs are firm at the recent advance. Butter is steady. Poultry is firm at quotations. Apples and potatoes are in large supply, at unchanged prices. Good apples

When selecting trees for an orchard something more is necessary than to send an order to the nurseryman for his best varieties. You must first learn which of the varieties are adapted to your climate and soil. Varieties that are suitable in one section may be utterly worthless in another. The nurseryman cannot assist you in the matter, as he can only give you the results of his own experiments. As this must be done in the beginning, any mistakes made may not be discovered until years to come, when it will then be too late to rectify

them. Coughs and colds readily yield to Brown's Expectorant; 50 cents a bottle.
